Dear Commissioner Henney:

I am a member of the Center for Science in the Public Interest and a family physician. I urge you to save human lives by banning the use of medically useful antibiotics in animal feed to make animals grow faster. Such unnecessary use of antibiotics contributes to the increasing resistance of bacteria to commonly used drugs. Life threatening bacterial resistance is an alarming trend. I support the petition filed by the CSPI.

Sincerely,

A handwritten signature in cursive script that reads "Carol S. Southland, M.D.". The signature is written in dark ink and is positioned above the printed name.

Carol S. Southland, M.D.
